

Our valve automation offering

Your valve
Butterfly, ball,
globe, and more

The perfect match to automate your valve

Valve controllers

- Neles and Stonel valve controllers (for control and on-off valves)
- Neles intelligent safety solenoids
- Neles Easyflow and Stonel limit switches

Actuators

- Neles Easyflow and Jamesbury pneumatic actuators (linear and rotary)
- Neles Easyflow actuators and instrumentation components
- Neles hydraulic actuators
- Valvcon electric actuator

Your preferred partner for valve automation

Whatever your requirements, we ensure the best valve performance and compliance for your applications. With our engineered solutions, you experience a comprehensive offering that meets your specifications.

From actuators and on/off valve controllers to positioners, limit switches, and instrumentation requirements, our unique approach means that we are your one-stopshop for all valve automation components.

All our market-leading solutions are based on proven technologies and are guaranteed to meet appropriate performance and environmental regulations, regardless of the original valve manufacturer.

Find out how our expertise can help your business with our complete portfolio of flow control solutions from world-renowned brands: **Neles™, Jamesbury™ and Neles™ Easyflow™, Stonel™, and Valvcon™.**
